STRIKE KEEPING SHIPS IN PORT

Firemen, Water Tenders and Oilers on Coastwise Lines Demand an Increase

THEY MAY BE JOINED BY THOUSANDS

Vessels Operated by U. S. Shipping Board Are Not Affected

New York, July 11.—Several coastwise steamers have been prevented from sailing and others due to leave tomorrow will be tied unless they are able to replace striking firemen, water tenders and oilers, who struck yesterday for a wage increase of \$15 a month. Officials of the International Seamen's union, with which the strikers' organizations are affiliated, estimated that 3,000 men are directly affected and that they should be joined by the seamen, cooks, stewards, engineers and mates. Should the claims of the union men be made good, about 40,000 men will walk out, paralyzing coastwise shipping.

Vessels operated by the United States shipping board are not affected. Representatives of engine room and deck forces will enter a final series of conferences in Washington with the officials of the shipping board to-day. At union headquarters it was said that unless the shipping board acceded to the men's demands the crews of government operated vessels would follow the men on the privately owned ships.

It is not believed that the strike will affect harbor traffic, but the crews of fishing boats which are affiliated with the striking unions, will go out as soon as their ships reach port. The crews of 16 fishing vessels in port when the strike was called quit work. There are about 1,200 men in the crews of the fishing fleet.

GERMAN STATES MAY NEED TO ACT

In Order to Make German Ratification of Treaty Complete

STATES LOSING LAND REQUIRED TO ACCEPT

The Allies Are Not Going to Leave Pretext for Declaring the Treaty Nullified

Paris, July 11 (By the Associated Press).—Ratification of the treaty of peace by the German national assembly at Weimar may be held not to be sufficient, according to the Petit Parisien. The new government constitution provides that in cases where territory is ceded the ratification of treaties by states which lose their territory is necessary in addition to approval by the central government. Consequently independent action by Bavaria, for the Sarre basin, and Prussia for territory restored to Poland may be required.

It may be said, the newspaper says, that the new constitution had been only partially accepted when the treaty was ratified, but, it adds: "It is imperative to avoid giving German legal experts a pretext for proclaiming the nullity of the treaty."

A good guarantee for Community chautauqua next year is pleasing news to many. Although the guarantors this year had to stand back of their pledges, Mr. Moore, the manager this year, created the best of feeling and made most of those who were on the paper this year, as well as some new ones, feel that the benefit to the community far exceeded the outlay. The children had a most helpful and enjoyable time with Miss Carlock, the junior director. She was also pleased with the efficient help rendered by Mrs. E. T. Houston. The victory pageant showed much work by the leaders and the eagerness of the children to participate was evident.
